

C# Trainee Developer

About the role

This is a junior-level trainee role to help build a successful career.

Following an initial intense training program, successful candidates will be assigned to our various project teams to assist in the conception, development, and support of technology projects, to learn by doing.

This position suits students seeking a place to gain industry experience. It is also suitable for graduates and those who are passionate about building a career in Technology.

Responsibilities:

- Assist the team in the design, development, programming, deployment, project documentation, and other tasks during various client projects.
- Work in teams to develop applications
- Research, learn, and use technology, including open-source solutions and online communities
- Work with the development team on various web & mobile application products.
- Developing & debugging C# .NET solutions.

Requirement Across all Roles:

- A passion for IT
- A drive to build a career in Tech

Perks

Accepted persons will be given an automatic FULL scholarship to a relevant Bincom Academy Class(es). A certificate of participation in the Bincom Academy class will be given.

This role starts as a 100% remote volunteer role.
